Skills

- UI / UX design and execution
- NodeJS: Server & Client
- XCode + Swift + iOS programming
- AWS (Amazon Web Services)
- C/C#/C++, PHP, & Python
- Vue, Angular, Webpack, ThanosJS

Experience

2015 – 2020

Lead Software Engr. [Smart Farm, KY]

Responsible for the design, execution, and upkeep of the Smart Farm (smartfarm.ag) mobile app UI/UX and all of the fun stuff behind the scenes to get live data from a remote farm.

2012 – 2020

CTO [Stream Surfer/Wolvings, FL]

Started out as a contract developer and accepted an invite to join the board to oversee technology, both old and new. My role at Smart Farm came from a joint venture between Stream Surfer and SFS.

Cross-platform development • Graphics • Hiring • Management • Sysadmin (AWS) • Client meetings • Never cooked fish in the office

2007 – 2011

Startups & Freelance [MI, TX, FL]

Education

2007 - Space Physics [Embry-Riddle, FL]

Activities

Since 2012, I have volunteered to assist Tri-County Counseling, a 501(c)(3) entity, with all of their technical needs pro bono. From web to advertising, SEO, security, tech-related purchases, and even random troubleshooting calls, I'm here to assist them in any way possible.

I also run a free program teaching software development with the local high school I graduated from.
